

POLICE OF SANTA CRUZ PROVINCE

INVESTIGATIONS DIVISION

CASE FILE: PV-26-12-NV

LOCATION

S1 - Legacy Infrastructure Node, Veyra

PURPOSE

Inspection of the last known location associated with Nathan Verra prior to his disappearance.

OBSERVATIONS

The facility was inspected under special authorization due to its relevance to the ongoing missing person investigation. No trace of Nathan Verra was identified within the inspected areas. A black clearance access pass was recovered beneath a mobile equipment cabinet. The pass appears authentic and remains in usable condition. The card is registered under identification code SM-4418. Investigators were unable to independently verify the current holder of the credential at the time of inspection. The photograph associated with the recovered pass is attached below.

PRELIMINARY ASSESSMENT

At this stage, the identity of the pass holder cannot be confirmed. However, the individual depicted on the recovered credential may possess information relevant to the disappearance of Nathan Verra and should be considered a person of investigative interest until further clarification is obtained.
